Report on Review of Interim Condensed Consolidated Financial Statements

To the Board of Directors of Doğuş Otomotiv Servis ve Ticaret A.Ş.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Doğuş Otomotiv Servis ve Ticaret A.Ş. (the Company) and its subsidiaries (the Group) as of September 30, 2018 and the interim condensed consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement cash flows for the nine-month period then ended, and explanatory notes. Group management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with Turkish Accounting Standard 34, Interim Financial Reporting (TAS 34). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with TAS 34.

NOTE 2 – BASIS OF PREPARATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND APPLIED ACCOUNTING POLICIES

2.1 Basis of presentation of the condensed consolidated interim financial statements

(i) Statement of Compliance to TAS

The accompanying condensed consolidated interim financial statements are based in accordance with Turkish Accounting Standards ("TAS") issued by Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA") as set out in the Communiqué serial II, No: 14.1 announcement of Capital Markets Board ("CMB") dated 13 June 2013 related to "Capital Market Communiqué on Principles Regarding Financial Reporting" ("Communiqué") which is published in official gazette, no 28676. TAS is composed of Turkish Accounting Standards, Turkish Financial Reporting Standards ("TFRS"), appendixes and interpretations. Additionally, the accompanying condensed consolidated interim financial statements are presented in accordance with TAS taxonomy issued by POA on 2 June 2016 with the decision number 30.

In accordance with the Communique, the companies are allowed to prepare a complete or condensed set of interim financial statements in accordance with TAS 34 "Interim Financial Reporting". In this respect, the Group has preferred to present its consolidated financial statements on a condensed level in accordance with the Communique.

(ii) Approval of financial statements

The condensed consolidated interim financial statements of the Company as of and for the period ended 30 September 2018 have been approved by the Board of Directors on 8 November 2018. The legal authorities of the General Assembly of the Company have the right to modify the issued financial statements.

(iii) Correction on financial statements during hyperinflationary periods

With the resolution taken on 17 March 2005, the CMB has announced that, effective from 1 January 2005, the application of TAS 29 "Financial Reporting in Hyperinflationary Economies" is no longer required for companies operating in Turkey and accordingly effective from 1 January 2005, TAS 29 has not been applied in preparing the Group's condensed consolidated interim financial statements in accordance with CMB Financial Reporting Standards.

(iv) Basis of Measurement

The condensed consolidated interim financial statements have been prepared based on the historical cost, except for the available-for-sale financial assets, which are measured at fair value.

(v) Functional and Presentation Currency

Items included in the financial statements of subsidiaries, joint ventures and associates are presented in the functional currencies in their primary economic environments in which they maintain their operations. The condensed consolidated financial statements are presented in TL, which is Doğuş Otomotiv's functional and presentation currency.

NOTE 2 – BASIS OF PREPARATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND APPLIED ACCOUNTING POLICIES (Continued)

2.1 Basis of presentation of the condensed consolidated interim financial statements (Continued)

(v) Functional and Presentation Currency (Continued)

The Company and its affiliates registered in Turkey maintain their books of account and prepare their statutory financial statements in Turkish Lira ("TL") in accordance with the Turkish Commercial Code, tax legislation, the Uniform Chart of Accounts issued by the Ministry of Finance. The affiliates in Switzerland maintains its books of account and prepares its statutory financial statements in Swiss Franc ("CHF") in accordance with the laws and regulations in force in Switzerland and the affiliate in Iraq maintains its books of account and prepares its statutory financial statements in Iraqi Dinar ("IQD") in accordance with the laws and regulations in force in Iraq.

(vi) Significant accounting assessments, estimates and assumptions

In order to prepare financial statements in accordance with TFRS, certain assumptions affecting notes to the financial statements and critical accounting estimations related to assets, liabilities, contingent assets and contingent liabilities are required to be used. Although these estimations are made upon the best afford of the management by interpreting the cyclical circumstances, actual results may differ from the forecasts. Issues that are complex and needs further interpretation, which might have a critical impact on financial statements. There is no change in judgments and critical accounting estimates in interim condensed consolidated financial statements as 30 September 2018 when compared to prior year.

2.2 Changes in TAS/TFRS

The accounting policies adopted in preparation of the interim condensed consolidated financial statements as at September 30, 2018 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2018. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at January 1, 2018 are as follows:

TFRS 15 Revenue from Contracts with Customers

In September 2016, POA issued TFRS 15 Revenue from Contracts with Customers. The new standard issued includes the clarifying amendments to IFRS 15 made by IASB in April 2016. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., the sale of property, plant and equipment or intangibles). TFRS 15 effective date is January 1, 2018.

The impact of this standard on the financial position and the performance of the Group are as follows;

The Group has a single obligation for the sale of vehicles, spare parts and services and in line with the previous applications, sales will only be recognized as sale of goods and will be recognized when the product is delivered. Therefore, the new standard have not had a significant impact on the financial position or performance of the Group.

2.2 Changes in TAS/TFRS (Continued)

i) The new standards, amendments and interpretations which are effective as at January 1, 2018 (Continued)

TFRS 9 Financial Instruments

In January 2017, POA issued the final version of TFRS 9 Financial Instruments. The final version of TFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. TFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, TFRS 9 addresses the so-called ‘own credit’ issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. TFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted by applying all requirements of the standard. Alternatively, entities may elect to early apply only the requirements for the presentation of gains and losses on financial liabilities designated as FVTPL without applying the other requirements in the standard.

The Group has performed an impact assessment of TFRS 9. This assessment is based on currently available information and may be subject to changes arising from further detailed analyses or additional supportable information being made available to the Group in the future. The impact of standard on all three aspects of TFRS 9 is as follows:

Classification and Measurement of Financial Assets:

There is no significant impact on the Group’s balance sheet or equity on applying the classification and measurement requirements of TFRS 9.

The Group will apply the option to present fair value changes in OCI, and, therefore, the application of TFRS 9 did not have a significant impact.

Loans as well as trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. The Group analyzed the contractual cash flow characteristics of those instruments and concluded that they meet the criteria for amortized cost measurement under TFRS 9. Therefore, reclassification for these instruments is not required.

Hedge Accounting:

The Group determined that all existing hedge relationships that are currently designated in effective hedging relationships would continue to qualify for hedge accounting under TFRS 9. As TFRS 9 does not change the general principles of how an entity accounts for effective hedges, applying the hedging requirements of TFRS 9 have not had a significant impact on Group’s financial statements.

i) The new standards, amendments and interpretations which are effective as at January 1, (Continued)

<u>Impairment:</u>

IFRS 9 requires the Group to record expected credit losses on all of its debt securities, loans and trade receivables, either on a 12-month or lifetime basis. The Group did not have a significant impairment for loans and trade receivables.

TFRS 4 Insurance Contracts (Amendments)

In December 2017, POA issued amendments to TFRS 4 Insurance Contracts. The amendments introduce two approaches: an overlay approach and a deferral approach. These amendments are to be applied for annual periods beginning on or after 1 January 2018. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

TFRIC 22 Foreign Currency Transactions and Advance Consideration

The interpretation issued by POA on December 19, 2017 clarifies the accounting for transactions that include the receipt or payment of advance consideration in a foreign currency.

The Interpretation states that the date of the transaction for determining the exchange rate to use on initial recognition of the related asset, expense or income is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. An entity is not required to apply this Interpretation to income taxes; or insurance contracts (including reinsurance contracts) it issues or reinsurance contracts that it holds.

The interpretation is effective for annual reporting periods beginning on or after 1 January 2018. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

TFRS 2 Classification and Measurement of Share-based Payment Transactions (Amendments)

In December 2017, POA issued amendments to TFRS 2 Share-based Payment, clarifying how to account for certain types of share-based payment transactions. The amendments, provide requirements on the accounting for:

a. the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments;

b. share-based payment transactions with a net settlement feature for withholding tax obligations; and

c. a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

These amendments are to be applied for annual periods beginning on or after 1 January 2018. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

TAS 40 Investment Property: Transfers of Investment Property (Amendments)

In December 2017, POA issued amendments to TAS 40 'Investment Property '. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. These amendments are to be applied for annual periods beginning on or after 1 January 2018. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

Annual Improvements to TFRSs - 2014-2016 Cycle

In December 2017, POA issued Annual Improvements to TFRS Standards 2014–2016 Cycle, amending the following standards:

- TFRS 1 First-time Adoption of International Financial Reporting Standards: This amendment deletes the short-term exemptions about some TFRS 7 disclosures, IAS 19 transition provisions and IFRS 10 Investment Entities. These amendments are to be applied for annual periods beginning on or after 1 January 2018.
- TAS 28 Investments in Associates and Joint Ventures: This amendment clarifies that the election to measure an investment in an associate or a joint venture held by, or indirectly through, a venture capital organization or other qualifying entity at fair value through profit or loss applying TFRS 9 Financial Instruments is available for each associate or joint venture, at the initial recognition of the associate or joint venture. These amendments are to be applied for annual periods beginning on or after 1 January 2018. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the interim condensed consolidated financial statements are as follows. The the Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

TFRS 16 Leases

In April 2018, POA has published a new standard, TFRS 16 'Leases'. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. TFRS 16 supersedes TAS 17 'Leases' and related interpretations and is effective for periods beginning on or after January 1, 2019, with earlier adoption permitted. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

Amendments to TAS 28 Investments in Associates and Joint Ventures (Amendments)

In December 2017, POA issued amendments to TAS 28 Investments in Associates and Joint Ventures. The amendments clarify that a company applies TFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture.

TFRS 9 Financial Instruments excludes interests in associates and joint ventures accounted for in accordance with TAS 28 Investments in Associates and Joint Ventures. In this amendment, POA clarified that the exclusion in TFRS 9 applies only to interests a company accounts for using the equity method. A company applies TFRS 9 to other interests in associates and joint ventures, including long-term interests to which the equity method is not applied and that, in substance, form part of the net investment in those associates and joint ventures.

The amendments are effective for annual periods beginning on or after 1 January 2019, with early application permitted.The amendments are effective for annual periods beginning on or after 1 January 2019.Earlier application is permitted. The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

The amendments are not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

In December 2017, the POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted. The Group will wait until the final amendment to assess the impacts of the changes.

TFRIC 23 Uncertainty over Income Tax Treatments

The interpretation clarifies how to apply the recognition and measurement requirements in “TAS 12 Income Taxes” when there is uncertainty over income tax treatments.

When there is uncertainty over income tax treatments, the interpretation addresses:
(a) whether an entity considers uncertain tax treatments separately;
(b) the assumptions an entity makes about the examination of tax treatments by taxation authorities;
(c) how an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and
(d) how an entity considers changes in facts and circumstances.

An entity shall apply this Interpretation for annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. If an entity applies this Interpretation for an earlier period, it shall disclose that fact. On initial application, an entity shall apply the interpretation either retrospectively applying IAS 8, or retrospectively with the cumulative effect of initially applying the Interpretation recognised at the date of initial application.

The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

Annual Improvements – 2010–2012 Cycle

IFRS 13 Fair Value Measurement

As clarified in the basis for conclusions short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial. The amendment is effective immediately.

IFRS 17 - The new Standard for insurance contracts

The IASB issued IFRS 17, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. IFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2021; early application is permitted. The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

Prepayment Features with Negative Compensation (Amendments to IFRS 9)

In October 2017, the IASB issued minor amendments to IFRS 9 Financial Instruments to enable companies to measure some prepayable financial assets at amortized cost.

Applying IFRS 9, a company would measure a financial asset with so-called negative compensation at fair value through profit or loss. Applying the amendments, if a specific condition is met, entities will be able to measure at amortised cost some prepayable financial assets with so-called negative compensation.

The amendments are effective from annual periods beginning on or after 1 January 2019, with early application permitted.

The amendment are not applicable for the Group and will not have an impact on the financial position or performance of the Group.

Annual Improvements – 2015–2017 Cycle

In December 2017, the IASB announced Annual Improvements to IFRS Standards 2015–2017 Cycle, containing the following amendments to IFRSs:

- IFRS 3 Business Combinations and IFRS 11 Joint Arrangements — The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.

- IAS 12 Income Taxes — The amendments clarify that all income tax consequences of dividends (i.e. distribution of profits) should be recognized in profit or loss, regardless of how the tax arises.

- IAS 23 Borrowing Costs — The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalization rate on general borrowings.

The amendments are effective from annual periods beginning on or after 1 January 2019, with early application permitted.

The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

Plan Amendment, Curtailment or Settlement" (Amendments to IAS 19)

On 7 February 2018, the IASB published Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement" to harmonise accounting practices and to provide more relevant information for decision-making. The amendments require entities to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after a plan amendment, curtailment or settlement occurs. An entity shall apply these amendments for annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. If an entity applies these amendments for an earlier period, it shall disclose that fact. The Company Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

2.3 Basis of Consolidation

(i) Business Combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, that is the date on when control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as:

- The fair value of the consideration transferred; plus
- The recognized amount of any non-controlling interests in the acquiree; plus
- If the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- The net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognized immediately in profit or loss. The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts generally are recognized in profit or loss.

Transactions costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

NOTE 2 – BASIS OF PREPARATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND APPLIED ACCOUNTING POLICIES (Continued)

2.3 Basis of Consolidation (Continued)

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the condensed consolidated interim financial statements from the date that control commences until the date that control ceases. If necessary, adjustments regarding accounting policies are made on subsidiaries financial statements in order to equalize accounting policies applied by the Group.

For each business combination, the Group elects to measure any non-controlling interests in the acquiree either:

- At fair value; or
- At their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to non-controlling interests are based on a proportionate amount of the net assets of the subsidiary. No adjustments are made to goodwill and no gain or loss is recognized in profit or loss.

Losses of subsidiaries belongs to non-controlling interest shall be attribute to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Upon the loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

The table below sets out all the subsidiaries included in the scope of consolidation and shows the Group's share of control as at 30 September 2018 and 31 December 2017:

	30 September 2018	**31 December 2017**
Doğuş Oto Pazarlama	96.20%	96.20%

(iii) Joint Arrangements

Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns. They are classified and accounted for as follows:

● Joint operation – When the Group has rights to the assets and obligations for the liabilities, relating to an arrangement, it accounts for each of its assets, liabilities and transactions, including its share of those held or incurred jointly, in relation to the joint operation.

● Joint venture – When the Group has rights only to the net assets of the arrangements, it accounts for its interest using the equity method.

The accompanying condensed consolidated interim financial statements include the Group's share of the profit or loss and other comprehensive income of equity accounted investees, after adjustments to align the accounting policies with those of the Group.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

Joint ventures are recognized as investments measured through equity method. The table below sets out all joint ventures and the Group's share of control as at 30 September 2018 and 31 December 2017.

	30 September 2018	**31 December 2017**

(iv) Associates

Associates are those enterprises in which the Group has significant influence, but does not have control, over the financial and operating policies. The condensed consolidated interim financial statements include the Group's share of the total recognized gains and losses of associates on an equity accounting basis, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds the carrying amount of the associate, the carrying amount is reduced to zero and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the associate.

The table below sets out all the associates included in the scope of consolidation and shows the Group's share of control as at 30 September 2018 and 31 December 2017:

	30 September 2018	**31 December 2017**
Yüce Auto Motorlu Araçlar Ticaret A.Ş. ("Yüce Auto") (*)	50.00%	50.00%

Doğuş Bilgi İşlem ve Teknoloji Hizmetleri A.Ş. ("Doğuş Teknoloji")	46.00%	46.00%

(*) Even though the Group has 50% interest in Yüce Auto (Distributor of Skoda), only exercises a significant influence rather than control on the operations of Yüce Auto.

(v) Transactions Eliminated in Consolidation

Intragroup balances and transactions, and any unrealized income and expenses arising from intragroup transactions are eliminated in preparing the condensed consolidated interim financial statements. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. The Group accounts for its interests in joint ventures indicated in Note 2.3 through equity method. Therefore, financial information regarding to aforementioned joint ventures are presented in Note 11 "Investments in Equity Accounted Investees".

NOTE 4 – OPERATING SEGMENTS

Operating segments have been determined based on the reports reviewed by the steering committee that make strategic decisions.

Group management believes that risk and rewards of the Group is strictly related with the changes in automotive sector and determined the Group's primary segments according to product types. Group's operating activities include importing, marketing and selling passenger and commercial vehicles, spare parts of Volkswagen Group brands (VW, Audi, Seat, Porsche, Bentley, Lamborghini, Bugatti, Scania, Scania Engines industrial and marine engine and Thermoking climate control systems) and used car operations in Turkey through its dealer network under the brand name "DOD". Group's operating segments are identified based on the product groups. Considering the nature of the products, operating segments are identified as passenger vehicles, commercial vehicles and other segments. Other segments comprise of used cars, spare parts and central office functions.

Segment assets and liabilities are not reported since the management reports do not include such information.

Accounting policies for certain types of transactions differ for management reporting from those used in preparation of the consolidated financial statements.

Warranty expenses and provision for legal matters have been included in the operating results when they are realized. Provisions for employee termination benefits expenses represent the undiscounted estimated future obligation of the Group arising from the retirement of the employees. Inventories are carried at cost. Depreciation and amortization which are not computed on a pro-rata basis are recognized in profit or loss on a straight-line method over the estimated useful lives of tangible and intangible assets.

NOTE 21 – TAX ASSET AND LIABILITIES

Turkish tax legislation does not allow for the submission of tax returns over consolidated financial statements prepared by the parent company, which include its subsidiaries and associates. Accordingly tax considerations reflected in these consolidated financial statements have been calculated separately for each of the companies in the scope of the consolidation.

The Corporate Tax Law was amended by Law No.5520 dated 13 September 2006. Most of the articles of the new Corporate Tax Law in question, No.5520, have come into force effective from 1 January 2006. As at June 2018, effective corporation tax is payable at a rate of 22% (will be applied as 22% for 2019 and 2020 tax periods) on the total income of the Company and its subsidiaries registered in Turkey after adjusting for certain disallowable expenses, tax-exempt income and investment and other allowances (e.g. research and development allowance). No further tax is payable unless the profit is distributed (except for withholding tax at the rate of 19.8%, calculated on an exemption amount if an investment allowance is granted in the scope of Income Tax Law temporary article 61).

As at 30 September 2018, enacted corporation tax rate is 15% for the subsidiary registered in Iraq according to local tax law (31 December 2017: 15%). According to Iraq tax laws, losses can be carried forward for offsetting against future taxable income for up to 5 years unless it is not exceeded by the half of the income for each year.

Dividends paid to non-resident corporations, which have a place of business in Turkey, or resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as a profit distribution.

(Convenience translation of condensed consolidated interim financial statements originally issued in Turkish and amounts expressed in thousands of TL unless otherwise indicated.)

NOTE 21 – TAX ASSET AND LIABILITIES (Continued)

Corporations are required to pay advance corporation tax quarterly at the rate of 20% on their corporate income (will be applied as 22% for 2018, 2019 and 2020 tax periods). Advance tax is declared by the 14th and paid by the 17th of the second month following each calendar quarter end. Advance tax paid during the year is offset against the annual corporation tax payable, which is calculated over the corporate tax return declared in the following year. If, despite offsetting, there remains an amount for advance tax amount paid, it may be refunded or offset against other liabilities to the government. Dividend income of a resident arising from the investments in another resident is not subject to corporate tax (Excluding dividend from investment funds participation certificates and investment trust shares).

Accordingly, income items complying with the abovementioned rules and included in accounting profit or loss are taken into account in corporate tax computation.

In determining the tax base, in addition to abovementioned exceptions, exceptions indicated in article 8 of Corporate Tax Law and article 40 of Income Tax Law are also taken into account.

There is no such application for the reconciliation of payable taxes with the tax authority. Corporate tax returns are submitted to the related tax office by the 25th day of the 4th month following the month when the accounting period ends.

Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue reassessments based on their findings.

Losses can be carried forward for offsetting against future taxable income for up to 5 years.

75% of the gains derived from the sale of preferential rights, usufruct shares and founding shares from investment equity and real property, which has remained in assets for more than two full years, are exempt from corporate tax. To be entitled to the exemption, the relevant gain is required to be held in a fund account under liabilities and it must not be withdrawn from the entity for a period of 5 years. The cost of the sale has to be collected up until the end of the second calendar year following the year the sale was realized.

For the nine and three month periods ended 30 September, taxation charge comprise of the following:

	For the nine month period ended 30 September 2018	For the nine month period ended 30 September 2017	For the three month period ended 30 September 2018	For the three month period ended 30 September 2017

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their financial statements prepared in accordance with Turkish Financial Reporting Standards and their statutory financial statements. These temporary differences usually result in the recognition of revenue and expenses in different reporting periods for TFRS and tax purposes. Tax rate is 22% for deferred tax assets and liabilities on temporary differences. Since the applicable tax rate has been changed to 22% for the 3 years beginning from 1 January 2018, 22% tax rate is used in the deferred tax calculation of 30 September 2018 for the temporary differences expected to be realized within 3 years (for the years 2018, 2019 and 2020). However, since the corporate tax rate after 2020 is 20%, 20% tax rate is used for the temporary differences expected to be realized after 2020. (31 December 2017: 20%).

NOTE 25 – FINANCIAL INSTRUMENTS

Financial instruments and capital risk management

Financial risk factors

The Group's objectives are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Group's capital structure includes payables including loans and respectively cash and cash equivalents, paid-in capital, reserves and retained earnings.

The board of directors monitors the return on capital and the level of dividends to ordinary shareholders.

The Group monitors its share capital by using financial liability to equity ratio. The ratio is calculated by dividing financial liabilities deducting to cash and cash equivalents to equity. Total of financial liabilities comprises entire current and non-current financial liabilities whereas total equity comprises each equity item on the statement of financial position.

The following table sets out the Group's financial liability to equity ratio as at 30 September 2018 and 31 December 2017:

	30 September 2018	31 December 2017

The Group's activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

The risk management program is applied by the Company and its subsidiaries, joint ventures and associates in line with the policies set by the board of directors.

(a) Credit risk

The Group's significant portions of receivables from dealers are collected through VDF Faktoring. The receivables from dealers through VDF Faktoring are collected when they are due and these are irrevocable transactions.

The credit risk arising from these transactions are followed by the management and these risks are limited for each debtor. These risks arising from relevant receivables are guaranteed with proper instruments (Note 8).

(b) Liquidity risk

Liquidity risk management refers to capacity of holding adequate amount of cash and marketable securities, adequate credit lines and ability to close out market position.

Risk of funding current and potential requirements is mitigated by ensuring the availability of adequate number of creditworthy lending parties. The Group, in order to minimize liquidity risk, holds adequate cash and line of credit including factoring capacity. In this regard, as at 30 September 2018, the Group have lines of credit amounting to Euro 802,852, USD 388,500, CHF 5,000 and TL 3,903,772 (31 December 2017: lines of credit amounting to Euro 657,852, USD 388,500, CHF 5,000 and TL 3,873,772). The utilized portions of the aforementioned total credit lines are disclosed in Note 7.

In addition, the Group has a non-cash credit line obtained from underwriting banks amounting to Euro 415,500 and CHF 5,000 equivalent to TL 2,918,538 (31 December 2017: Euro 333,000 and CHF 5,000 equivalent to TL 1,522,936) that enables the Group to perform credit purchases from original equipment manufacturers with an option to pay in 12 months. The Group's credit purchase limit based on the letters of guarantee given to the main foreign suppliers of which Euro 67,193 and CHF 4,559 equivalent to TL 494,928 is not used as at 30 September 2018 (31 December 2017: Euro 248,932 and CHF 5,000 equivalent to TL 1,139,750).

(c) Currency risk

The Group is exposed to foreign exchange risk through the impact of rate changes on the translation of foreign currency denominated payables to original equipment manufacturers and borrowings from financial institutions. This risk is monitored by the board of directors through periodic meetings. The Group's foreign currency position is managed throught taking limited positions within limits recommended by executive board and approved by board of directors as well using derivative instruments where necessary.

To minimize the risk arising from foreign currency denominated balance sheet items, the Group utilizes derivative instruments as well as keeping part of its idle cash in foreign currencies. In addition, translation of cost of goods-in-transit until completion of the customs transactions, in accordance with the customs law provides a natural hedge.

NOTE 25 – FINANCIAL INSTRUMENTS (Continued)

Financial instruments and capital risk management (Continued)

Financial risk factors (Continued)

(d) Market risk

The Group is exposed to market risk through holding shares of Doğuş Holding.

Even though the shares of Doğuş Holding are not quoted in the capital market, fair value of the Doğuş Holding's shares is determined by using market information of publicly held Doğuş Holding group companies and other valuation methodologies are used for remaining Doğuş Holding group companies. Therefore, value of Doğuş Holding recognized in the financial statements is affected by price fluctuations in the shares of publicly held Doğuş Holding group companies.

Under the assumption of 10% increase/decrease in share prices as at 30 September 2018, all other variables held constant, the Group's equity would have been increased/decreased by TL 4,735 (31 December 2017: TL 8,857).

(e) Interest rate risk

As at 30 september 2017, if market interest rates on TL denominated borrowings at variable rates were higher/lower by 100 basis (1%) point where all other variables held constant, higher/lower interest expense on borrowings at variable rates would cause net income for the period to be lower/higher by TL 9. Interest rate table is as follows:

30 September 2018	**Interest rate table**		
		Current period	**Previous period**
	Financial instruments with floating interest rates		
Financial liabilities	TL	-	9

(f) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date except involuntary liquidation or distress sale. When available, the quoted price in an active market provide the best estimate of its fair value.

If a quoted market price is not available, the Group using available market information and appropriate valuation methodologies estimates the fair value of the instrument. However, judgment is necessarily required to interpret market data to develop the estimated fair value. Accordingly, the estimates made are not necessarily indicative of the amounts that could be realized in current market exchange.

NOTE 25 – FINANCIAL INSTRUMENTS (Continued)

Financial instruments and capital risk management (Continued)

Financial risk factors (Continued)

(f) Fair value (Continued)

Financial assets

The principles used in determining the fair values of financial assets and liabilities are as follows:

Cash and cash equivalents are presented on cost basis and are assumed to reflect their fair values as they are liquid and classified as current assets.

Trade receivables are presented netted off related doubtful portion of the receivable and are assumed to reflect their fair value.

Since Doğuş Holding is not a publicly traded, fair value of Doğuş Holding is determined by using current market information's for publicly traded companies under Doğuş Holding governance. Fair value of Doğuş Holding is also determined by using other valuation methods for non-public companies under Doğuş Holding governance. Therefore Doğuş Holding presented under financial assets is assumed to reflect its fair value.

Financial liabilities

Short-term TL denominated bank borrowings are assumed to converge to its fair value. Some of long-term borrowings, denominated in foreign currency and TL are assumed to reflect their fair value due to their floating rates. Long-term and fixed rate borrowings are considered to converge to its fair value, when it is valued with fixed interest rate valid as of the balance sheet date.

Since trade payables are short-term and foreign currency denominated, they are assumed to reflect their fair values. Estimated fair value of financial instruments is determined by the Group using the existing market information or appropriate valuation methods, if possible.

However, market value may not reflect the fair value as contentment is used in finding out the expected fair value. Therefore, except for mentioned assumptions, inputs for the financial asset or liabilities which are not based on observable market data (unobservable inputs) and the Group utilize for their contentment regarding fair value analysis, are considered as level 3 in relation to valuation method for comparable fair value analysis of long-term financial liabilities under the classifications defined.

Classification regarding fair value measurement

"TFRS 7 – Financial Instruments: Disclosure" requires the companies to disclose the classification and hierarchy of the data used in determining the fair values of the financial instruments. The basis for the hierarchy is dependent on whether the data used in fair value calculation is observable or not. Observable inputs mean that the Group using market inputs derived from independent sources and unobservable inputs mean that the Group using market expectation and assumptions. This distinction leads to classifications presented as below:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets and liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3: inputs for the asset or liability that are not based on observable market. (unobservable inputs).

Classification requires use observable market inputs where available. In this respect, fair value classifications of financial assets which are valued with their fair values are as follows:

	30 September 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Financial assets:				
Available-for-sale financial assets (Note 6)	-	555,775	-	555,775
Total financial assets	**-**	**555,775**	**-**	**555,775**

	31 December 2017
